Minieri Associates Commemorates the Founder's 40 Year Security Career

1974

2014

Minieri Associates, the worldwide independent professional security consulting and engineering firm, announces the celebration of founder Michael Minieri's 40th year in the industry. One mark of the occasion is the release of ["From Guard-to-Global in 40 Years"](#) an interview where he talks about his career path and milestones.

Mr. Minieri began as a security guard while attending college in 1974 and the paper – in PDF - includes several photos of the subject in a sort of "then and now" format. The interview, summarized by long time colleague Mike Colyott, was derived from an informal question-and-answer session with friends and staff during a celebratory gathering in the Philippines, Minieri Associates regional base in Asia.
